PRODUCT DESCRIPTION

Bio Green® 20+MICROS Turf™ 20-0-1 Lawn Fertilizer is engineered to be a complete product for all varieties of turfgrass. It is formulated to produce a quick green-up response and maintain consistent color for 6-8 weeks. **Bio Green® 20+MICROS Turf™** will produce a strong root mass which will grow deeply into the soil. **20-0-1** will stimulate soil activity necessary for building sustainable fertility. For cool season grass varieties, it is the recommended product for every lawn application. For warm season grass varieties, it is the recommended product for applications during the cooler months. **20-0-1** is not recommended for non-irrigated lawns during periods of drought stress.

Bio Green® Lawn and Landscape™ easy to use liquid products improve turf color and drought resistance, increase germination rates and root mass and depth, regulate top-growth, and stimulate aerobic soil activity and topsoil development. More Info: biogreen.com

Always read and follow label directions.

APPLICATION RECOMMENDATIONS

Pro Directions • Handling & Storage

SHAKE WELL! *The mixed product should be agitated prior to and during application.*

Lawns: Apply **Bio Green 20+MICROS** at a minimum rate of 5 gallons per acre with a minimum of 100 gallons of water. Apply to all turf types at an interval of 4-8 weeks. Recommended annual rate of 60 lbs. N per acre.

Store in a cool dry place away from direct sunlight. Product will store for 2 years under warehouse conditions.

Apply in accordance with best management practices (BMP's) established by your Cooperative Extension Service. Observe any State or Local fertilizer application regulations.

Caution: This product contains the secondary micronutrient iron. Iron may stain concrete, wood and other pervious and imperious surfaces. Apply only to turf, plants, and soil. If plants are flowering, apply to base of the plant to avoid staining of blooms.

Keep out of Reach of Children: If product comes in contact with skin or eyes, flush with water immediately.
